

Ahmad Alqunbar

Senior Full-Stack Developer

✉ ahmad.alqunbar97@gmail.com ☎ +962788811695 📍 Amman-Jordan 🌐 GitHub 🌐 LinkedIn

Personal Summary

Senior Full-Stack Developer with 5+ years of experience architecting and delivering scalable SaaS platforms, POS systems, and enterprise-grade web applications. Specialized in Laravel, Node.js, and React ecosystems, with strong expertise in system design, multi-tenant architectures, API integrations, and performance optimization.

Experienced in leading complex integrations including payment gateways, loyalty systems, and third-party services, while designing clean backend architectures and maintainable front-end applications. Strong background in DevOps workflows, production deployments, and ensuring high availability systems.

Passionate about building robust, scalable solutions that align technical architecture with evolving business strategies.
